

No more unsafe (and ugly)  
brackets hanging outside.

Introducing something revolutionary.

# AceBrace®

WINDOW AIR CONDITIONER SUPPORT

For window  
openings  
25" to 44" wide

Supports  
AC units  
up to 130 lbs.

## ■ Fast & Easy Installation

Installs in minutes from the inside.

## ■ Safe

Prevents the AC from being pushed out by children.

## ■ Secure

Prevents an intruder from pushing the AC in from the outside.

## ■ Dependable

Nothing on the outside to deteriorate. Installs in almost any window opening.

**The AceBrace telescopes and anchors to the window frame interior jambs.**

**This protects the AceBrace from outside conditions.**

**It provides a sturdy mount to hold the AC**

**AceBrace®**  
WINDOW AIR CONDITIONER SUPPORT

PATENTED

This window air conditioner support was designed as a response to the thousands of improperly supported air conditioners on building walls.

The AceBrace was engineered to support most window air conditioner units from the INSIDE as opposed to the outside. **It supports more weight than most exterior brackets.**
